

# FENTANYL FREE AMERICA

Dear Friends and Partners in Prevention:

DEA Administrator Terry Cole [announced the launch](#) of [Fentanyl Free America](#), a comprehensive enforcement initiative and public awareness campaign aimed at reducing both the supply and demand for fentanyl. Fentanyl remains a significant threat to communities across the United States, including Tribal communities. This initiative highlights DEA's commitment to protect American lives and communities from the devastating impacts of fentanyl, which claimed nearly 50,000 lives last year according to the Centers for Disease Control and Prevention (CDC).

Fentanyl Free America incorporates and builds on the work of the One Pill Can Kill campaign and DEA's other community outreach and prevention support initiatives. We welcome your support and your help in raising awareness about the Fentanyl Free America initiative. A toolkit of community outreach resources that you can share with your contacts can be found at: <https://www.dea.gov/fentanylfree/promote>

To learn more about Fentanyl Free America, visit: [www.dea.gov/fentanylfree](http://www.dea.gov/fentanylfree)

Your help is critical in bringing stakeholders together and reaching as many Tribal community members as possible. If you would like to connect with a DEA Community Outreach Specialist or Diversion Program Specialist, please visit: [www.dea.gov/divisions](http://www.dea.gov/divisions).

We appreciate your time and look forward to working together to make a meaningful impact to build a [Fentanyl Free America](#). Please reach out with any questions.

Respectfully,

Naomi
