§ 543.7 What are the minimum internal control standards for bingo?

(a) Bingo Cards—(1) Inventory of bingo paper. (i) The bingo paper inventory must be controlled so as to assure the integrity of the bingo paper being used as follows:

(A) When received, bingo paper must be inventoried and secured by an authorized agent(s) independent of bingo sales;

(B) The issue of bingo paper to the cashiers must be documented and signed for by the authorized agent(s) responsible for inventory control and a cashier. The bingo control log must include the series number of the bingo paper;

(C) The bingo control log must be utilized by the gaming operation to verify the integrity of the bingo paper being used; and

(D) Once each month, an authorized agent(s) independent of both bingo paper sales and bingo paper inventory control must verify the accuracy of the ending balance in the bingo control log by reconciling it with the bingo paper inventory.

(ii) Paragraph (a) (1) of this section does not apply where no physical inventory is applicable.

(2) Bingo sales. (i) There must be an accurate accounting of all bingo sales.

(ii) All bingo sales records must include the following information:

(A) Date;
(B) Time;

(C) Shift or session;

(D) Sales transaction identifiers, which may be the unique card identifier(s) sold or when electronic bingo card faces are sold, the unique identifiers of the card faces sold;

(E) Quantity of bingo cards sold;

(F) Dollar amount of bingo sales;

(G) Signature, initials, or identification of the agent or device who conducted the bingo sales; and

(H) When bingo sales are recorded manually, total sales are verified by an authorized agent independent of the bingo sales being verified and the signature, initials, or identification of the authorized agent who verified the bingo sales is recorded.

(iii) No person shall have unrestricted access to modify bingo sales records.

(iv) An authorized agent independent of the seller must perform the following standards for each seller at the end of each session:

(A) Reconcile the documented total dollar amount of cards sold to the documented quantity of cards sold;

(B) Note any variances; and
(C) Appropriately investigate any noted variances with the results of the follow-up documented.

(3) Voiding bingo cards. (i) Procedures must be established and implemented to prevent the voiding of card sales after the start of the calling of the game for which the bingo card was sold. Cards may not be voided after the start of a game for which the card was sold.

(ii) When a bingo card must be voided the following controls must apply as relevant:

(A) A non-electronic bingo card must be marked void; and

(B) The authorization of the void, by an authorized agent independent of the original sale transaction (supervisor recommended), must be recorded either by signature on the bingo card or by electronically associating the void authorization to the sale transaction of the voided bingo card.

(4) Reissue of previously sold bingo cards. When one or more previously sold bingo cards need to be reissued, the following controls must apply: the original sale of the bingo cards must be verified; and the reissue of the bingo cards must be documented, including the identity of the agent authorizing reissuance.

(b) Draw—(1) Verification and display. (i) Procedures must be established and implemented to ensure the identity of each object drawn is accurately recorded and transmitted to the participants. The procedures must identify the method used to ensure the identity of each object drawn.
(ii) For all games offering a prize payout of $1,200 or more, as the objects are drawn, the identity of the objects must be immediately recorded and maintained for a minimum of 24 hours.

(iii) Controls must be present to assure that all objects eligible for the draw are available to be drawn prior to the next draw.

(c) Manual Payouts and Short Pays. (1) Procedures must be established and implemented to prevent unauthorized access or fraudulent transactions using manual payout documents, including:

(i) Payout documents must be controlled and completed in a manner that is intended to prevent a custodian of funds from altering the dollar amount on all parts of the payout document subsequent to the manual payout and misappropriating the funds.

(ii) Payout documents must be controlled and completed in a manner that deters any one individual from initiating and producing a fraudulent payout document, obtaining the funds, forging signatures on the payout document, routing all parts of the document, and misappropriating the funds. Recommended procedures of this standard include but are not limited to the following:

(A) Funds are issued either to a second verifier of the manual payout (i.e., someone other than the agents who generated/requested the payout) or to two agents concurrently (i.e., the generator/requestor of the document and the verifier of the manual payout). Both witness the manual payout; or
(B) The routing of one part of the completed document is under the physical control (e.g., dropped in a locked box) of an agent other than the agent that obtained/issued the funds and the agent that obtained/issued the funds must not be able to place the document in the locked box.

(iii) Segregation of responsibilities. The functions of sales and prize payout verification must be segregated, if performed manually. Agents who sell bingo cards on the floor must not verify bingo cards for prize payouts with bingo cards in their possession of the same type as the bingo card being verified for the game. Floor clerks who sell bingo cards on the floor are permitted to announce the identifiers of winning bingo cards.

(iv) Validation. Procedures must be established and implemented to determine the validity of the claim prior to the payment of a prize (i.e., bingo card was sold for the game played, not voided, etc.) by at least two persons.

(v) Verification. Procedures must be established and implemented to ensure that at least two persons verify the winning pattern has been achieved on the winning card prior to the payment of a prize.

(vi) Authorization and signatures. (A) A Class II gaming system may substitute as one authorization/signature verifying, validating or authorizing a winning card of less than $1,200 or other manual payout. Where a Class II gaming system substitutes as an authorization/signature, the manual payout is subject to the limitations provided in this section.
(B) For manual prize payouts of $1,200 or more and less than a predetermined amount not to exceed $50,000, at least two agents must authorize, sign and witness the manual prize payout.

(1) Manual prize payouts over a predetermined amount not to exceed $50,000 must require one of the two signatures and verifications to be a supervisory or management employee independent of the operation of bingo.

(2) This predetermined amount, not to exceed $50,000, must be authorized by management, approved by the tribal gaming regulatory authority, documented, and maintained.

(3) Documentation, including:

Justification: Correction of numbering error.

(E) Game outcome (e.g., patterns, symbols, bingo card identifier/description, etc.) for manual prize payouts, external bonus description, reason for short pay, etc.;

(F) Preprinted or concurrently printed sequential manual payout identifier; and

(G) Signatures or other authorizations, as required by this part.

(ii) For short-pays of $10 or less, the documentation (single-part form or log is acceptable) must include the following information:

(E) Reason for short pay.

(iii) In other situations that allow an agent to input a prize payout or change the dollar amount of the prize payout by more than $1 in a Class II gaming system that has an automated prize payout component, two agents, one of which is a supervisory employee, must be physically involved in verifying and witnessing the prize payout.
(iv) For manually paid promotional prize payouts, as a result of the play of a game and where the amount paid is not included in the prize schedule, the documentation (single-part form or log is acceptable) must include the following information:

(A) Date and time;

(B) Player interface number;

(C) Dollar amount paid (both alpha and numeric). Alpha is optional if another unalterable method is used for evidencing the amount paid;

(D) The signature of at least one agent verifying and witnessing the manual promotional prize payout of $599 or less and two agents verifying and witnessing the manual promotional prize payout exceeding $599;

(E) Description or name of the promotion; and

(F) Total amount of manual promotional prize payouts must be recorded by shift, session or other relevant time period.

(i) Controlled gaming equipment/components (e.g., draw objects and back-up draw objects); and
(ii) Random number generator software. (Additional information technology security standards can be found in §543.16 of this part.)

(2) The game software components of a Class II gaming system will be identified in the test laboratory report. When initially received, the software must be verified to be authentic copies, as certified by the independent testing laboratory.

If the voucher is greater than a predetermined amount approved (not to exceed $500), a supervisory employee must approve the payment and evidence that approval by initialing the voucher prior to payment.

(6) Paid vouchers are maintained in the cashier's accountability for reconciliation purposes.

(7) Upon restored operation of the voucher system, vouchers redeemed while the voucher system was temporarily out of operation must be validated as expeditiously as possible.
(8) Unredeemed vouchers can only be voided in the voucher system by supervisory employees. The supervisory employee completing the void must clearly mark “void” across the face of the voucher and sign across the face of the voucher, if available. The accounting department will maintain the voided voucher, if available.

(g) Patron accounts and cashless systems. (1) All smart cards (i.e., cards that possess the means to electronically store or retrieve data) that maintain the only source of account data are prohibited.

(2) For patron deposit accounts the following standards must apply:

(i) For each patron deposit account, an agent must:

(A) Require the patron to personally appear at the gaming operation;

(B) Record the type of identification credential examined, the credential number, the expiration date of credential, and the date credential was examined. (Note: A patron's driver's license is the preferred method for verifying the patron's identity.
